**Philosophy**

Founded in 2013 by cabinetmaker Baptiste Ducommun, Klybeck creates timeless and poetic furniture and accessories in its workshop.

The wood, with its unique character, is crafted by hand and with innovative techniques to achieve perfect quality.

Klybeck adopts a sustainable approach through its use of carefully selected materials and local suppliers who share the same values.

It all began in the Klybeck neighborhood of Basel in Switzerland. It is still there that new shapes and new stories continue to be born.

## Modular coffee table "63"

Design: Baptiste Ducommun, 2018

With its three overlapping table tops which can rotate 360 degrees, the coffee table "63" offers a variety of shapes and combinations. When in a closed position, the table occupies minimum space, which can then be opened like a flower to achieve its full size. From an intimate atmosphere to a festive ambience, this modular table adapts to a life in motion.

## Coat stand "y"

Design: Baptiste Ducommun, 2013

The sculptural coat stand "y" invites the spirit of the forest into your home. Available in 3 wood species, this tree dresses each room with a touch of lightness. Its 12 branches are mindfully placed at various heights and inclinations to create a harmonious and functional geometry. The sleek and airy silhouette is rooted in a steel base that guarantees complete stability.

## Hunting trophy "yy"

Design: Baptiste Ducommun, 2014

The majestic deer "yy" offers a contemporary interpretation of the hunting trophy. Decorative element or functional coat hanger, it acts as a sentinel over the room in a kind and reassuring manner. Its imposing antlers join together with a soft and satiny head. In order to create the trophy that best suits your interior, this statement piece is available in 6 fabric colours.

## Set of 3 coat hooks "ivy"

Design: Baptiste Ducommun, 2015

Providing a decorative dimension to a functional solution, "ivy" is a set of three coat hooks of different sizes and shapes. Like branches growing from the wall, the hooks can be associated with one another, and scaled up to cover a whole surface area. The choices of position and angle enable infinite possibilities. Thanks to a metal bracket and two screws, the hooks are easily installed and guarantee robust stability.

## Bird "jov"

Design: Baptiste Ducommun, 2018

Mobile to hang, "jov" is both your new pet bird and an elegant, contemporary and playful interior accessory. There are two models depending on the position of the wings, ascending or descending. Placed side by side, the two birds create an impression of a wing flapping in majestic flight. "jov" gives your favorite room a touch of lightness and poetry.

## Coat hanger "k"

Design: Baptiste Ducommun, 2016

Made of oak and metal, the clothes hanger "k" is a durable must-have accessory that adds style to any wardrobe. This useful essential suits all clothes, from large coats to delicate dresses. With a refined aesthetic, it perfectly complements the Klybeck collection.
